How to fit a goggle

Fitting and Wearing Goggles

Step 1
Place the goggle on the face with one hand

Step 2
Whilst holding it in place bring the head band over and to the back of the head with the other hand (Not on the helmet)

Step 3
Adjust head band to head size

Step 4
Check the seal
• If wearing prescription glasses check that the side arms do not break the seal
• Check for gaps by running your index fingers around the seal (particularly around the nose area)

Wearing with a Respirator

Step 1
Place the goggles on first, followed by the respirator

Step 2
Make sure that the goggle sits comfortable on the respirator (nose)

Step 3
Ensure you have achieved a positive seal

Removing Goggles

Step 1
Lean slightly forward facing down and pull head band over the top of the head

Step 2
Pull goggle down from the face (take care, this is when most injuries occur)
