

PROSENSE STINGA GLOVE

PRODUCT CODE: NPF

DESCRIPTION

The Stinga glove provides the ultimate in bare hand technology. It has a firm, comfortable fit that will enhance the dexterity of the wearer

FEATURES AND BENEFITS

Bare hand technology provides increased dexterity, control & comfort making it perfect for a huge range of applications

The seamless 15 gauge shell is a thicker, stronger & tighter knit giving a second skin feeling rather than that of wearing a glove

Highest grade nylon gives the user more control & it's also latex free which is great for those with latex allergies

The PVC foam coating provides water repellency, comfort & enhanced gripping power in wet & dry conditions. It also offers similar wear & abrasion resistance to nitrile, but has one major added benefit - many types of glue will not adhere to it

APPLICATIONS

Wood Working, Light Fabrication, Construction, Automotive Manufacturing, White Goods, Petroleum Industry, Shipping & Assembly, Small Parts Handling

PRODUCT DETAILS

Material : Seamless nylon machine knit
100% apparel grade nylon
PVC foam coating
