Graphex® recognise that without product certification by a Notified Body all product performance testing, and adherence to standards claims cannot be independently verified. If they are not as claimed, serious safety implications for the wearer, and legal implications for the supplier and even the employer may arise.

Graphex source their entire range of Synthetic hand protection from a single manufacturing partner to ensure consistency and reliability of product, but most importantly Graphex have taken the further step of engaging a globally recognised Notified Body to audit and certify both the manufacturing process and the products.

All of Graphex's hand protection is certified as per AS/NZS and CE hand protection standards.

Key Technologies

Graphex® Yarn

Graphex® yarn provides the highest levels of mechanical performance, with exceptional comfort and dexterity.

Oil Resistant

This glove's palm is coated in a material that resists oil and petroleum degradation.

Actifresh

The Actifresh Sanitized treatment neutralizes odour creating bacteria. Gloves are kept fresher for longer. Actifresh resists UV degradation and maximizes product longevity.

Touch Screen Friendly

The wearer can leave their gloves on while answering phone messages, reducing the chances of a workplace hand injury.
