

Safety Data Sheet

GHS7 Not Hazardous, Non-Dangerous Goods

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name:	REVIVE SKIN CONDITIONER		
Synonyms:			
Product Code:	150		
SUPPLIER:	Penrite Oil Company Pty Ltd		
ADDRESS:	Australia: 110-116 Greens Road Dandenong South VIC 3175 New Zealand: 75 Lady Ruby Drive East Tamaki Auckland 2013		
TELEPHONE:	Australia: 1300 736 748;	FAX:	Australia: 1800 736 748;
	New Zealand: 0800 533 698		New Zealand: 0800 533 698
EMERGENCY PHONE:	Australia: 1300 736 748;	ABN:	25 005 001 525
	New Zealand: 0800 533 698		
Substance:	Water based cleaner	Product Use:	Cosmetic cream
Creation Date:	September 2021	Revision Date:	September 2026
HSNO Approval Number:	Not applicable	HSNO GROUP TITLE:	Not applicable.
HS CODE:	3304.99.30.00	Email:	tech@penriteoil.com (Aust and NZ)

SECTION 2 – HAZARDS IDENTIFICATION

Classification of the substance or mixture

Based on available information, this material is NOT classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS7) including Work, Health and Safety regulations, Australia.

Poisons Schedule Not scheduled.

Dangerous Goods Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and the "New Zealand NZS5433: Transport of Dangerous Goods on Land".

GHS Classification None allocated

HSNO Classification None allocated

GHS Pictogram None allocated

GHS Signal Word None allocated

Hazard statement(s) None allocated

Precautionary statement(s): General None allocated

Precautionary statement(s): Prevention None allocated

Precautionary statement(s): Response None allocated

Precautionary statement(s): Storage None allocated.

Precautionary statement(s): Disposal None allocated.

Note

IMPORTANT This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied. However, good hygiene and housekeeping practices should be adhered to.

Restrictions on use This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseeable use. Cosmetics and consumer products, specifically

Safety Data Sheet

GHS7 Not Hazardous, Non-Dangerous Goods

defined by regulations around the world, are exempt from the requirement of an SDS for the consumer. While this material is not considered hazardous, this SDS contains valuable information critical to the safe handling and proper use of the product for industrial workplace conditions as well as unusual and unintended exposures such as large spills. This SDS should be retained and available for employees and other users of this product. For specific intended-use guidance, please refer to the information provided on the package or instruction sheet.

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredients:	CAS Number:	Proportion:
Glycerol	56-81-5	<10% w/w
1,2-Propanediol	57-55-6	<10% w/w
Ingredients determined to be non-hazardous at concentrations present.	various	To 100%

NOTE: Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS).

SECTION 4 – FIRST AID MEASURES

Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).
First Aid Facilities Required	Ensure there is access to eye washes and safety showers.
Inhalation	Remove victim to fresh air away from exposure. Obtain medical attention if symptoms occur.
Skin contact	Cosmetic cream - no adverse effects expected. If any symptoms occur, wipe off affected area and wash with water. Seek medical advice (e.g. doctor) if irritation, burning or redness develops.
Eye contact	If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. If symptoms persist, seek medical attention.
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek urgent medical advice (e.g. doctor).
Advice to Doctor	Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.

SECTION 5 – FIRE FIGHTING MEASURES

Fire and Explosion Hazards	This product is not flammable under conditions of use, however evaporation of water from the mixture caused by the heat of nearby fire may produce floating layers of combustible substances.
Extinguishing Media	Use an extinguishing media suitable for surrounding fires. Use carbon dioxide, foam, dry chemical or water spray. Spray down fumes resulting from fire.
Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition.

Safety Data Sheet

GHS7 Not Hazardous, Non-Dangerous Goods

Flash Point Non combustible.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Emergency Procedures Shut off engine and electrical equipment and leave off.
Move people from immediate area; keep upwind.
Wear appropriate personal protective equipment and clothing to prevent exposure.
Stop leak if safe to do so.
Send messenger to notify fire brigade and police.
Tell them location, material quantity, emergency contact.
Indicate condition of vehicle and damage or injuries observed.
Warn other traffic.

Occupational Release Minor spills do not normally need any special clean-up measures. Rinse with water.
In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate protective equipment as in section 8 below to prevent eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water.
If contamination of sewers or waterways has occurred advise the local emergency services.
In the event of a large spillage notify the local environment protection authority or emergency services.

SECTION 7 – HANDLING AND STORAGE

Handling Wear eye protection when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers.

Storage Store in a cool, dry, place with good ventilation. Keep containers closed at all times – check regularly for leaks.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Control parameters

Occupational Exposure Limits National Occupational Exposure Limits, as published by National Occupational Health & Safety Commission:
Time-weighted Average (TWA): None established for product.
• **Glycerin (mist): 10mg/m³**
Short Term Exposure Limit (STEL): None established for product.

Control parameters

Biological Limits No biological limits allocated.

PERSONAL PROTECTION PPE

Ventilation No special requirements.

Personal Protective Equipment Use good occupational work practice.

The use of protective clothing and equipment depends upon the degree and nature of exposure. Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken.

The following protective equipment should be available;

Safety Data Sheet

GHS7 Not Hazardous, Non-Dangerous Goods

Eye Protection

Cosmetic cream – not required for typical applications as per label directions.

The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.

Skin Protection

Cosmetic cream – not required for typical applications as per label directions.

Wear gloves. Overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.

Protective Material Types

Material suitable for detergent contact – Butyl rubber, Natural Latex, Neoprene, PVC, and Nitrile.

Respirator

Not required.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Viscous cream	Colour	opaque white
Odour	Characteristic fragrance	Specific Gravity	0.98 @ 25 °C
Boiling Point	Not available	Freezing Point	Not available
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	Not flammable	Flammable Limits	None
Water Solubility	Miscible in all proportions	pH	7.0 – 8.0 (neat)
Volatile Organic Compounds (VOC)	0 % v/v	Coefficient of Water/Oil	
Viscosity	Not available	Distribution	Not available
Evaporation Rate	Not available	Odour Threshold	Not available
		Per Cent Volatile	Not available

SECTION 10 – STABILITY AND REACTIVITY

Reactivity	Stable at normal temperatures and pressure.
Chemical stability	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Conditions to avoid	None known.
Incompatible materials	Oxidising agents.
Hazardous decomposition products	Hazardous decomposition products are not expected to form during normal storage requirements. Product can decompose on combustion (burning) to form Carbon Monoxide, Carbon Dioxide, and other possibly toxic gases and vapours.
Hazardous Reactions	None known.

SECTION 11 – TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Inhaled Not expected to be an inhalation hazard.

Ingestion Based upon the Acute Toxicity Estimate data (ATE calculated), the product is expected to have a very low order of oral toxicity associated with it when ingested.

Safety Data Sheet

GHS7 Not Hazardous, Non-Dangerous Goods

Skin Contact	The product is a cosmetic cream containing skin conditioners – not expected to be irritating to skin.
Eye	Concentrated product may cause eye irritation. Eye contact with concentrate may cause stinging, blurring, tearing.
Chronic exposure	No known effects.
Toxicology Information	Not toxic, based on ingredients. Oral LD50 (ATE calculated): >100,000 mg/kg
Carcinogen Status	
NOHSC	No significant ingredient is classified as carcinogenic by NOHSC.
NTP	No significant ingredient is classified as carcinogenic by NTP.
IARC	No significant ingredient is classified as carcinogenic by IARC.
Respiratory sensitisation	Not expected to be a respiratory sensitizer.
Skin Sensitisation	Not expected to be a skin sensitizer.
Germ cell mutagenicity	Not considered to be a mutagenic hazard.
Reproductive Toxicity	Not considered to be toxic to reproduction.
STOT-single exposure	Not expected to cause toxicity to a specific target organ.
STOT-repeated exposure	Not expected to cause toxicity to a specific target organ.
Aspiration Hazard	Not expected to be an aspiration hazard.

SECTION 12 – ECOLOGICAL INFORMATION

Acute Aquatic Toxicity	
Product (as sold)	Acute Aquatic Toxicity NOT HAZARDOUS Not harmful to aquatic life. LC50 > 100mg/L. Acute Aquatic Toxicity (ATE Calculated) LC50: 100 - 250 mg/L.
Chronic Aquatic Toxicity	
Persistence and degradability	All organic components of this product are expected to be readily biodegradable.
Bio accumulative potential	No bioaccumulation is expected.
Mobility in soil	Due to its physico-chemical characteristics, highly mobile in the environment and will partition to the aquatic compartment.
Other adverse effects	Not available
Environmental Protection	Do not discharge bulk quantities of this material into waterways.

SECTION 13 – DISPOSAL CONSIDERATIONS

Product and Packaging Disposal	Dispose of contents/container to chemical landfill. Consult local or regional waste management authority for further details.
---------------------------------------	---

SECTION 14 – TRANSPORT INFORMATION

IMDG Marine Pollutant:	No
HAZCHEM:	None allocated.
Land Transport (ADG):	Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and the "New Zealand NZS5433: Transport of Dangerous Goods on Land".
MARINE TRANSPORT:	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.
AIR TRANSPORT:	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

Safety Data Sheet

GHS7 Not Hazardous, Non-Dangerous Goods

SECTION 15 – REGULATORY INFORMATION

Montreal Protocol (Ozone depleting substances).	Not applicable.
The Stockholm Convention (Persistent Organic Pollutants).	Not applicable.
The Rotterdam Convention (Prior Informed Consent).	Not applicable.
Basel Convention (Hazardous Waste).	Not applicable.
INTERNATIONAL CONVENTION FOR THE PREVENTION OF POLLUTION FROM SHIPS (MARPOL):	Not applicable.
Poison Schedules:	Not scheduled.
AICS	All components of this product are listed on or exempt from the Australian Inventory of Chemical Substances (AICS).
NZIoC (New Zealand Inventory of Chemicals):	All components of this product are listed on or exempt from the New Zealand Inventory of Chemical (NZIoC).
HSNO Approval Number:	Not applicable

SECTION 16 – OTHER INFORMATION

Issue Date:	29 th September 2021

Disclaimer

This MSDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.
