

Cut

Heavy Duty

## Enhanced safety due to the high visibility, cut performance and Level 1 thermal protection.

- HyFlex® 11-200 offers the most comfortable sleeve in the Ansell range. Generous space in the arm area reduces sweat and itchiness
- The anatomic design with adjustable forearm area enables freedom of movement so workers can do the job without constraints, increasing productivity
- Enhanced safety is assured, thanks to a high visibility sleeve with Level EN Cut 5 performance (ANSI A3) and Level 1 thermal protection (EN407)
- Better abrasion resistance (Level 2) and washability mean HyFlex® 11-200 offers improved total cost of ownership
- Due to its ergonomic design and fixing system, worker acceptance will increase, leading to fewer accidents and injuries

### Industries

- Automotive
- Automotive Aftermarket
- Machinery and Equipment
- Metal fabrication

### Applications

- Handling structural and body components
- Inspection, selecting, checking parts
- Body panel repair and replacement
- Glass repair and replacement
- Seizing structural and body parts
- Inspection (picking, checking and marking)
- Touching up
- Press shop operations
- Metalwork, glass processing

# HyFlex®

ADVANCED MECHANICAL PROTECTION

## 11-200

Ansell's most comfortable cut-resistant and high-visibility sleeve.

### Key Features

- **Comfort:** The most comfortable sleeve in Ansell range - through generous space in the arm area reducing sweat and itchiness
- **Freedom of movement:** Anatomic design enables freedom of movement so that workers can do the job without constraints
- **Safety and longevity:** High visibility in a cut resistant sleeve with a prolonged wear life due to the Level 2 in abrasion resistance
